

SGE Poster Session at GSA Meeting

At the recent [Geological Society of America](#) Annual Meeting in Toronto the [SGE](#) Poster Paper session was very well received. All participants are to be congratulated for their excellent presentations.

A special congratulations goes to **Carlos Picornell**, winner of the \$100 Austin A. Sartin Best Paper Award. Carlos is a member of Gamma Omicron Chapter at the University of New Orleans. The title of his poster was *Fold Style of Archean Marbels of the Indian Creek Metamorphic Suite, Tobacco Root Mountains, Southwestern Montana*.

Honorable Mention and a \$50 prize goes to **Thomas Fewless**, who presented a paper entitled *Petrologic Investigations of the Pole Creek and Juniper Ridge Tuffs, Sonoma Range, North-Central Nevada*. Thomas worked with John J. Hayes, David Matty and Stephen Stahl, and he is a member of the Epsilon Kappa chapter of Central Michigan University.

The other participants in the SGE Poster session were:

- **Ryan D. Christensen**, with James G. Kirchner (Department of Geography-Geology, Illinois State University)
CHEMICAL VARIATIONS IN GLAUCONITE FROM THE CAMBRIAN DEADWOOD FORMATION, BLACK HILLS, SOUTH DAKOTA
- **Gregory A. Buchoveckey**, with Donald J. Stierman (Geology Department, University of Toledo)
BICYCLE MAGNETOMETER SURVEY OF THE SENECA ANOMALY, NORTHERN OHIO
- **Marie Plummer Minniar** (Geology Department, University of Toledo)
FORECASTING THE PERMANENT DECLINE IN GLOBAL PETROLEUM PRODUCTION
- **Steven P. Loheide II**, with Mohammad Z. Iqbal (Department of Earth Science, University of Northern Iowa)
HYDROGEOLOGIC FLOW IN THE CEDAR HILLS SAND PRAIRIE, BLACK HAWK COUNTY, IOWA
- **Kimberly M. Berends** (Earth Science Department, Northeastern Illinois University)
WATER BUDGET ANALYSIS OF THE MIDDLE FOX RIVER BASIN, ILLINOIS
- **Stephen J. Gustafson**, with Steven W. Bennett (Department of Geology, Western Illinois University)
RANGES OF HYDRAULIC CONDUCTIVITY ESTIMATES PREDICTED FROM GRAIN SIZE DATA AND THEIR EFFECTS UPON ANISOTROPY
- **R. C. Thomas**, with C. S. Romanek (Department of Geology and Savannah River Ecology Laboratory, University of Georgia)
REMEDIATION OF ACID-SULFATE RUNOFF ORIGINATING FROM A COAL STORAGE PILE USING A MODIFIED CONSTRUCTED-WETLAND TECHNOLOGY
- **Susan E. Block**, with Berry W. Lyons (Department of Geology, University of Alabama)
MAJOR ELEMENT AND NUTRIENT GEOCHEMISTRY OF FIVE SUBURBANIZED

STREAMS IN TUSCALOOSA COUNTY, ALABAMA: IMPACT OF VARIOUS LAND USES

- **Theresa M. Barber**, with David J. Matty, Jane M. Matty (Department of Geology, Central Michigan University)

ANALYSIS OF IRON-MANGANESE OXIDE COATINGS ON STREAM SEDIMENTS
